

Coldplay - Big Noise Mencap

Mencap's Little Noise Sessions held at the Union Chapel, Islington have featured such musical luminaries as Snow Patrol, Amy Winehouse, Noel Gallagher, Bono & The Edge and the Stereophonics.

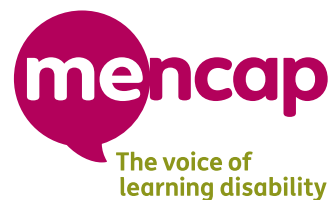

In 2009 plans were put in place for a special 'Big Noise' event featuring a homecoming performance by one of the world's biggest bands; Coldplay.

Mencap brought in Little Noise's production manager Graham Baker to coordinate the event who subsequently brought us in to provide additional support.

This intimate Christmas show was held within the medieval courtyard of Exeter Castle for an audience of 700 and as such proved a challenging site from both a production and public safety standpoint.

The show featured Coldplay's full 96 channel stadium backline setup and a very special intimate 'B' stage performance. Working in liaison with Centre Stage we were proud to supply the following services to Mencap:

- Stage Management
- Site Design Consultancy & CAD Planning
- Event Safety Management Planning
- Pedestrian & Traffic System Design
- Event Personnel

MENCAP TESTIMONIAL

Dear Ben,

Please accept this letter of thanks for your input into the recent Coldplay concert in Exeter for Mencap. From the start of the contract your advice and support enabled both ourselves and the emergency services to take a back seat in the emergency planning process knowing that your experience would ensure a safe event for all concerned.

I would not only have no hesitation in recommending your services to other organisations but also feel confident that we will ourselves be asking Whole Nine Yards to work with us on many future events.

Yours sincerely, **Graham Baker** - for and on behalf of **Mencap**.
